Statement by the Secretary-General of the World Assembly in Support of the Resistance Option

The World Assembly in Support of the Resistance Option, through its Secretary-General, Dr. Yahya Ghaddar, expresses its deep concern and categorical rejection of the decision of the Lebanese Council of Ministers to mandate the Lebanese army to prepare a plan to disarm the resistance.

The Assembly affirms that this decision, which comes in the context of clear external pressures, represents a serious violation of the national constants and contradicts the foundations on which the Lebanese entity is based. In this regard, we make the following observations:

1. At the constitutional and legal level: The said decision explicitly violates the provisions of the Lebanese Constitution and the National Accord Document (Taif Agreement), which stressed the need for the state to liberate its territory. It also contradicts international conventions, foremost among which is the Charter of the United Nations, which recognizes the right of peoples to self-determination and to resist occupation by all available means. The Government's response to these dictates loses its decision under constitutional and constitutional cover and constitutes a coup against its ministerial statement on which it has gained confidence.

2. On the political and sovereign level: Making a fateful decision of this magnitude based on foreign agendas empties government work of its national content, and makes the government a tool to implement policies that do not serve the supreme interest of Lebanon, but serve the interests of the aggressor and the occupier. Such steps threaten the credibility and sovereignty of the state, and turn it into a party that acts against the elements of its own strength.

3. At the level of national unity and internal stability: raising controversial issues in this unilateral form, and under external pressure, poses an imminent threat to national unity and civil peace. Instead of fortifying the internal front in the face of dangers, this decision opens the door to division and sows the seeds of sedition, which may push the country towards a state of instability and chaos that serves only Lebanon’s enemies.

Based on the above, the global gathering to support the option of resistance:

• Calls on all political forces and popular segments to express their rejection of this dangerous path by organizing continuous and peaceful popular movements until the overthrow of all these constitutional violations and adherence to the equation that protected Lebanon and preserved its sovereignty.

• Appeals to the President of the Republic and the Speaker of the House of Representatives, and all the living national forces, to assume their historical responsibilities at this pivotal moment, and to work to prevent the loss of Lebanon's sovereignty, dignity and elements of strength.

• Warns that the implementation of such decisions will put Lebanon in a state of strategic exposure to an enemy that lurks in it, and will undermine all the sacrifices made in order to liberate the land and protect the homeland.

• Affirms its full solidarity with the Palestinian people in Gaza in the face of the war of extermination, and believes that the targeting of the resistance in Lebanon is an integral part of a broader attempt to break the will of steadfastness and resistance in the entire region.

The assembly, which is spread across its branches in 86 countries, puts its trust in the awareness of the Lebanese people and the wisdom of its national leaders to thwart these plans, and confirms that the resistance, which derives its legitimacy from the sacrifices of its people and the blood of its martyrs, will remain the fortified shield of Lebanon in the face of all conspiracies and projects targeting its existence and future.
